## Automann adds MAHLE HVAC & Engine Components

Automann is pleased to add the MAHLE brand of HVAC and Engine Components to its offering.

With 100 years of growth, MAHLE has become a prominent leader in the heavy duty engine parts market.

Their Genuine heavy duty program includes the latest technology for pistons, piston rings, cylinder sleeves, engine bearings, turbochargers, thermostats and rotating electric.

The Mahle portfolio encompasses Clevite heavy duty engine parts, which includes rebore kits, ring sets, rod bushings, valve train parts, cylinder sleeve assemblies and components, piston assemblies and components, and others.

MAHLE's Genuine heavy duty aftermarket products are functionally equivalent to OEM in terms of quality, performance, availability, warranty, and service.

Highlights of the MAHLE offering:

- Heavy duty inframe and overhaul engine kits
- Heavy duty gasket sets
- Filters and air drying cartridges
- Turbochargers
- Thermostats
- Rotating electric
- Clevite sleeve assemblies
- Clevite bearings
- Clevite heavy duty water pumps
- Behr engine cooling and HVAC parts
- Ancillary parts
