Automann adds OE Mechanical Cables from Orscheln Products

Orscheln Products supplies the world with innovative solutions. Established in 1946, Orscheln Products has built a reputation as the leading global supplier of motion control systems. This recognition comes from a continuous commitment to manufacturing quality, leading-edge products and providing superior service.

Orscheln's family of products includes Park Brake Systems, Mechanical Control Cables, Dipsticks (Fluid Level Indicators), Electronic Throttle Controls and Electronic Shift Controls.

Orscheln Products' customer groups include the On-Highway, Off-Highway, Aerospace, Defense, Marine and specialty markets. Common applications include: Trucks, Buses, Motorhomes, Marine Engines, Agricultural and Construction equipment.

They utilize in-house CAD designs, tools and fixture and End-of-the-line Kaizen for quality controls.

About Automann

Family-owned and customer-driven since 1994, Automann has become a global leader of heavy-duty truck and trailer parts. Automann offers an ever-expanding catalog of over 40,000 parts across 18 product categories. The company's product portfolio includes both Automann-branded products and a growing collection of leading brand names. With six strategically located distribution centers across North America, Automann collaborates with an extensive distributor network to provide garages, fleets, and end-users with quality replacement parts promptly and at an exceptional value.
