Automann Energized for 2025 Following Successful Winter Sales Meeting

Monroe Township, NJ – February 7, 2025 – Automann has wrapped up its Winter Sales Meeting, setting the stage for a successful 2025. The event brought together team members, industry experts, and partners to reflect on past successes and strategize for the year ahead. The meeting featured the introduction of four new team members, reinforcing Automann's commitment to growth and excellence. Attendees also had the opportunity to hear from leading industry partners, including AFA, IMI, and New Pig, who provided valuable insights into market trends and innovations.

A key highlight of the event was the series of presentations from Automann's product managers, who energized the team with updates on newly added products and upcoming releases. In 2024 alone, Automann expanded its catalog by more than 2,700 parts, strengthening its ability to serve customers with a broad and diverse inventory.

Additionally, the meeting focused on operational excellence, giving team members a deeper understanding of what it takes to achieve quick order turnaround, maintain tight inventory control, and ensure accurate order fulfillment. Territory presentations provided a platform for open dialogue, allowing team members to share successes, challenges, and strategies for growth.

With a strong foundation built in 2024 and an ambitious roadmap for 2025, Automann remains dedicated to delivering best-in-class products, service, and digital solutions to its customers.

About Automann

Family-owned and customer-driven since 1994, Automann has become a leader for global distribution of heavy-duty truck and trailer parts. Automann offers an ever-expanding catalog of over 50,000 parts across 18 product categories. The company's product portfolio includes both Automann-branded products and a growing collection of leading brand names. With six strategically located distribution centers across North America, Automann collaborates with an extensive distributor network to provide garages, fleets, and end-users with quality replacement parts promptly and at exceptional value.
