Automann adds AFA Heavy Duty Engine Overhaul Kits

Since 1987 in Fraser Michigan where AFA Industries was founded, AFA has become a leader in supplying engine parts, gaskets, and seals to the diesel engine replacement parts industry. AFA is a family run business with worldwide presence, supplying engine parts and complete engine overhaul kits suitable for various Caterpillar, Cummins, Detroit Diesel, and Navistar engine applications. AFA continues to expand its product line to meet market demands.

Highlights of AFA's Overhaul Kits Include:

- High Strength Friction-Welded Steel Pistons
- Advanced Cross-Hatched Honing Process for Maximum Retention and Seal
- Plasma Coated Piston Rings
- PVD Blasted Bi and Tri Metal Engine Bearings
- Multilayer and Rubber Edge Bonding Superior Sealing Technology Gaskets
