**New Pig Adhesive-Backed Mat Notice:** New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive mats have some potential to leave residue, lift and/or discolor 1) surface finish, 2) surface coating, 3) paint, 4) loose or previously damaged tiles. For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months in commercial and general public environments, depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced in commercial and general public environments no later than 6 months after installation.
