

FLOW-THRU CLEANING BRUSH

Includes Hose Adapter

Connects to most hoses.

Fasten hose adapter to cleaning brush before connecting to hose. Water pressure recommended to be turned to 1/4 - 1/2 for best results.

High-quality filament for this application and more filament by volume than any other on the market.

Perfect for Those Hard to Clean Items!

POLYESTER FILAMENT PROPERTIES

- Excellent solvent resistance
- Excellent oxidation resistance
- Does not absorb water
- Good abrasion resistance
- Excellent bend recovery
- Excellent heat resistance
